*Physician Practice Billing From A to Z* is a comprehensive, user-friendly guide to billing requirements, with particular emphasis on Medicare. This resource will help physician practice billers understand the relevant regulations, code sets, compliance issues, and myriad other factors that affect the billing process.

From ABNs to ZPICs, this valuable reference book addresses, defines, and explains more than 100 topics in alphabetical order, including the following:

- Billing Compliance
- Evaluation and Management and Procedure—Same Day
- Locum Tenens
- Modifier Overview
- National Provider Identifier
- Observation—Billing Codes and Requirements
- Codes—CPT and HCPCS
- HCPCS vs. CPT: G (Temporary) Code Assignment
- Medically Unlikely Edits and Their Adjudication Indicators
- Rejected and Denied Claims
- Split/Shared Visits
- Deductibles, Copayments, and Coinsurance
- Laboratory Billing and Modifiers -91 and -59
- Medicare Beneficiary Numbers—Health Insurance Claim Number Prefixes and Suffixes
- Denial of Related Part B Services When Inpatient Service Denied by Medicare
- Local Coverage Determinations and National Coverage Determinations
- Medicare Coverage Overview

### About the author

**Charlotte L. Kohler, RN, CPA, CVA, CRCE-I, CPC, ACS, CHBC**, president of Kohler Healthcare Consulting, Inc., has more than 30 years of healthcare experience, including reimbursement compliance and fraud and abuse litigation support. She is also the author of HPro's *Hospital Billing From A to Z*. Her work in billing and reimbursement has included:

- Analysis of billing methods and concepts to recommend appropriate coding and billing techniques for Forms 1500 and UB-04
- Hospital process improvements, including forms design and training
- Analysis of computer system capabilities for required statistical and financial data
- Reimbursement and billing analysis to assist with operational changes, service development, litigation support, and third-party investigations
- Statistical analysis of billing errors and problems for testimony
